LECTURES.--On Natural Philosophy, and Chemistry, with use of Apparatus; International Law and Civil Polity; Political Economy; Philosophy of Rhetoric and Elocution; Classical Literature.

On completion of the full course, the student will, if approved on examination, be admitted to the degree of Bachelor of Arts; and three years thereafter to the degree of Master of Arts in course.

Young gentlemen desirous of pursuing select portions of the course, will be admitted to the recitations, and other exercises of the regular classes, with the privilege of attending on the lectures of the several Professors. Such students will, if they desire it, receive a written statement of the number of sessions spent at the University, and of the branches of study pursued by them.

EXAMINATIONS,

Will be publicly holden of all the classes at the close of each session.

EXHIBITIONS.

1. Of the Literary Societies, at the close of the first session.
2. Of the Junior class, at the close of the second session.
3. Of the Graduating class, at Commencement.

SESSIONS.

1. From the third Monday of September, fourteen weeks.
2. From the first Monday of January, fourteen weeks.
3. Fourteen weeks, terminating at commencement; which is fixed on the last Thursday of July.

ANNUAL EXPENSES.

Tuition, at \$10 per session, - - - - -	\$30,00
For wood and other contingencies, - - - - -	1,00
Board, with washing, lodging, fuel and lights, (averaging \$1,75 per week,) - - - - -	75,00

Total, - - - - - \$106 ,00

With view to the preservation of the Edifice, heavy charges will be made for any damages wrongfully committed. It is to be hoped there will be no occasion to add this item to the expenditures of any student. For contingencies, as mentioned above, fifty cents will be paid by each student for the first two sessions.

PAYMENT OF BILLS.

It is provided, by ordinance of the Curators, that no person be admitted by the President as a member of the University for any session, until he present a certificate from the Secretary of the Board, that his bill for tuition and contingencies have been paid in advance.

DISCIPLINE.

Records are kept by the faculty, exhibiting accurately the standing of each student in scholarship and deportment. A low standing on either record will be followed by private ad-

monition, and notice of the same will be given to the parent or guardian. Unexcused absence from a public examination, or continued delinquency will subject the offender to degradation to some lower class, or to separation from the Institution. It is believed, however, that a prompt and judicious co-operation on the part of parent and guardians, will relieve the Faculty from the necessity of resorting to severe measures; and that the ends of good government may be secured by means that will save the feelings and the character of the student.

LEAVE OF ABSENCE.

The arrangement of vacation is such, as to render it quite unnecessary, during session, for the students to visit their friends beyond the immediate neighborhood of the University, except for urgent and unforeseen reasons. The occasional loss of a day cannot fail to have an unfavorable bearing on the intellectual habits and standing of the student. It is hoped that parents and guardians will concur with the Faculty, in their opinion of the inexpediency of granting leave of absence in ordinary cases.

The Board of Curators, at a special meeting in the month of February of the present year, established, by ordinance a Medical Department of the University of the State of Missouri.

The Medical Faculty consists of a Professor of Anatomy and Surgery, a Professor of Theory and Practice of Medicine, a Professor of Physiology and Materia Medica, a Professor of Obstetrics and diseases of women and children, a Professor of Chemistry and Pharmacy, and a Professor of Pathology and Clinical Medicine.

The Professors hold their sessions, and deliver their instructions in the city of St. Louis.

The regular courses of lectures commence on the first Monday in November, and close the first week in March. During the last two weeks in October, lectures out of course are delivered by some one of the Professors, to such students as may be in attendance before the opening of the session.

In the city Hospital, is presented almost every variety of disease, and the student (for a small fee) is admitted to the Hospital clinique; and has the opportunity of observing the symptoms and the treatment of each and all the maladies there presented.

The requisites for graduation in the Medical Department of the University of the State of Missouri, are, that the candidate shall not be less than twenty one years of age, and of good moral character; shall have enjoyed the advantages of two year's private pupilage, and have attended two courses of lectures, the last of which must have been attended in this school; write and defend a thesis on some Medical subject, and stand a satis-

factory examination before the Faculty, or shall have attended three successive courses of lectures without previous private pupilage, or shall have been engaged in a reputable practice for three years, and have attended one course of lectures in this school. The aggregate cost of tickets, including the Matriculation ticket is \$110. Dissecting ticket \$10, which the student is required to take but once; graduation fee \$20.

Comfortable boarding can be obtained, within a convenient distance of the College at from two to three dollars per week.

Students desiring further information, can address to Dr. John S. Moore, Dean of the Medical Faculty, St. Louis, or, on their arrival in the city, can call upon him at 61 Fourth street, opposite the Planter's House.
